- 100% low embodied-energy material: olefin has a lower embodied-energy compared to polyester and nylon.

### PRODUCTION

- Environmentally Improved Production Process: reduced energy consumption, reuse and recycling of waste.

### GREEN STAR

- THINK can be used on white furniture certified to Ecospecifier's GreenTag GreenRate standard (Levels B + C), AFRDI's Sustainability Standard for Commercial Furniture and GECA Furniture and Fittings Standard.
- The Green Star Rating Tool states "*Where at least 90% of an item's total mass is certified to a GBCA recognised standard, the item can be entered as a certified product at Level A, B or C*". Any fabric can be used as fabrics are almost always under 10% by weight of a furniture item.
